

**Kristina Chambers - TTX Company**

Kristina Chambers is the Director of Operations Strategy and Analytics at TTX Company in Chicago, Illinois. TTX is North America's largest provider of railcars and rail-related services. She leads a data science and strategic planning team to design, develop, and implement innovative solutions that optimize railcar maintenance and maximize operational and business efficiencies.

Before joining TTX in 2013, Kristina held senior leadership positions in Finance and Operations at General Electric across multiple business units in the US and Europe. She is fluent in German and also worked in Frankfurt, Hamburg, and Munich.

Kristina holds a BA in Economics from the University of Illinois at Urbana-Champaign and an MBA from Northwestern University's Kellogg School of Management. She is Vice President of the Traffic Club of Chicago.
