

Saturn Freight Systems-Marietta, GA has a Chicago office which is looking to add an experienced freight salesperson.

The ideal candidate would be someone from the freight forwarding or LTL industry with command of \$3/4 million per year plus of "portable" business, with a client following and needing a network to manage their client's transportation needs. Our network helps manage expedited ground, airfreight, economy LTL, express LTL, TL tradeshow and international air and ocean (imports and exports). Saturn Freight Systems has been in business 29 years and we have 26 offices which are all owned and operated by those who manage them, and we continue to grow in selected markets.
